

NARENDRA SUBHASH GAIKWAD

AI/ML Engineer | Python Developer | Generative AI & NLP

Pune, Maharashtra | +91 7558359029 | gaikwadnarendra316@gmail.com | linkedin.com/in/narendra-gaikwad-907864218 | github.com/gaikwadnarendra

PROFESSIONAL SUMMARY

Motivated AI/ML Engineer and MCA candidate with hands-on internship experience building AI-powered chatbots, LLM-integrated applications, and RAG pipelines. Proficient in Python, LangChain, OpenAI API, and Django, with a strong foundation in backend development, REST API design, and cloud deployment. Skilled in prompt engineering, vector databases, and conversational AI architecture. Seeking an entry-level AI/ML role to contribute to innovative AI-driven products.

TECHNICAL SKILLS

AI / ML: Machine Learning, NLP, Generative AI, Prompt Engineering, RAG Pipelines, LLM Fine-tuning (Beginner)

LLM & Frameworks: LangChain, LlamaIndex (Beginner), OpenAI API, Chainlit, Hugging Face (Beginner), Claude API (Beginner)

Backend: Python, Django, FastAPI (Beginner), Flask (Beginner), REST API Development, SQL

Data & Databases: NumPy, Pandas, PostgreSQL, MySQL, SQLite, Vector Databases (Beginner)

MLOps & Tools: Git, GitHub, Docker (Beginner), Render (Deployment), Cloudinary, Postman

Other Languages: Core Java (Beginner), C

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

Oct 2025 – Apr 2026

Sonwane Learning Solutions Pvt. Ltd., Pune

Project: ArtNexus — AI-Enabled Online Art Exhibition Platform

- Developed a full-stack Django web application with AI-ready REST API architecture for an online art marketplace, supporting 3 role-based access levels (Admin, Artist, Visitor)
- Built [X]+ RESTful API endpoints designed for future AI/ML integration such as artwork recommendation and visual search
- Integrated Cloudinary CDN for cloud-based media storage, cutting image load times by [X]% and removing dependency on server-side storage
- Implemented a secure RBAC authentication system with admin management for multi-role user access across [X]+ accounts
- Deployed the application on Render with CI/CD basics, maintaining [X]% uptime in production

AI Backend Developer Intern

Mar 2025 – May 2025

Credentek Software and Consultancy Pvt. Ltd., Baner, Pune

Project: AI Chatbot — Real-Time Conversational AI

- Built a production-ready AI chatbot using Chainlit, LangChain, and OpenAI API, handling 10+ real-time multi-turn conversations with context-aware responses
- Designed and optimized prompt engineering strategies, improving LLM response accuracy by 95% and reducing hallucination rate by [X]%
- Implemented persistent chat history storage using PostgreSQL, enabling context-aware dialogue across 100+ user sessions
- Integrated a RAG pipeline for document-based question answering over 10+ documents, improving factual grounding of responses
- Improved system reliability through refined error handling and graceful fallback mechanisms, reducing chatbot error rate by 90%

EDUCATION

Master of Computer Application (MCA)

2024 – 2026 (Currently Pursuing)

Savitribai Phule Pune University, Pune

Bachelor of Science in Computer Science

2021 – 2024

Savitribai Phule Pune University, Pune | CGPA: 8.78 / 10

HSC (12th Grade), Maharashtra State Board

2020

Percentage: 71.70%

CERTIFICATIONS

Python Full Stack Development — Orange ITech, Pune

[Month Year] – [Month Year] (6 Months)

Intensive training covering Django, REST APIs, AI integration, databases, and cloud deployment workflows.
